CLASSIFICATION SYSTEM

Policy: All facilities will develop and implement a system according to which ICE detainees are classified. The classification system will ensure that each detainee is placed in the appropriate category, physically separated from detainees in other categories

Components	Y	N	NA	Remarks
The facility has a system for classifying detainees. In CDFs and IGSAs, an Objective Classification System or similar is used.	\boxtimes			Service standards used
 The facility classification system includes: Classifying detainees upon arrival. Separating individuals who cannot be classified upon arrival from the general population. The first-line supervisor or designated classification specialist reviewing every classification decision. 		⊠		Facility does not receive classification from ICE on every detainee. However, they temporary classify each detainee by running their criminal histories with Pulaski Sheriff Dept.
The intake/processing officer reviews work-folders, A-files, etc., to identify and classify each new arrival.	\boxtimes			ICE only provides bios and some classification
Staff use only information that is factual, and reliable to determine classification assignments. Opinions and unsubstantiated/ unconfirmed reports may be filed but are not used to score detainees classifications.	⊠		Ċ.	
Housing assignments are based on classification-level.	\boxtimes			
A detainee's classification-level does not affect his/her recreation opportunities. Detainees recreate with persons of similar classification designations.	×			
Detainee work assignments are based upon classification designations.	\boxtimes			
The classification process includes reassessment/reclassification. At IGSA's, detainees may request reassessment 60 days after arrival.			×	ICE detainees are not re- classified by the facility. Reassessment may be recommended to ICE if warranted
Procedures exist for a detainee to appeal their classification assignment. Only a designated supervisor or classification specialist has the authority to reduce a classification-level on appeal.	\boxtimes			
Classification appeals are resolved within five business days and detainees are notified of the outcome within 10 business days.	\boxtimes			
Classification designations may be appealed to a higher authority such as the Warden or equivalent.	\boxtimes			
The Detainee Handbook or equivalent for IGSAs explains the classification levels, with the conditions and restrictions applicable to each.	×			
⊠ Acceptable ☐ Deficient		Repeat Finding		

Remarks: (Record significant facts, observations, other sources used, etc.)

In some instances the Facility does not receive classification from ICE on newly arriving detainees. The facility temporarily classifies these detainees by reviewing their criminal histories provided by the Pulaski Sheriff's Department. Their classification system is the same as ICE. This temporary classification remains

in effect for housing purposes until ICE provides their classification levels which would generally take around 2 to 7 days. After the receipt of the official classification levels, the facility makes any necessary adjustments to insure detainees are housed per ICE standards. BOP releases, Fugitive Operations, ASU and WEU detainees are usually the detainees that arrive at this facility without ICE classifications. This facility is presently creating and revising their current classification policies to reflect these procedures.
