MEMORANDUM FOR: David Venturella
Acting Director
Office of Detention and Removal Operations

FROM: [Redacted] *J*
Lead Compliance Inspector

SUBJECT: Jefferson County Detention Facility
Initial Detention Review

MGT of America performed an annual inspection for compliance with the ICE National Detention Standards (NDS) at the Jefferson County Detention Facility (JCDF) located in Mt. Vernon, IL during the period of September 15-17, 2009. This facility is an IGSA.

The annual inspection was performed under the guidance of [Redacted] Lead Compliance Inspector. Team members were:

[Redacted]		
Security	[Redacted]	
Health Services	[Redacted]	
Food Services	[Redacted]	
Safety	[Redacted]	

Type of Review

This is a scheduled annual review which is performed to determine overall compliance with the ICE NDS. The Pre-Occupancy review was conducted at JCDF in September 9 – 11, 2008, with an overall "Deficient" rating. The Review Authority signed the review on March 10, 2009, and advised the Field Office the facility could not be utilized to house ICE detainees until a Plan of Action was approved. The Plan of Action was approved on April 10, 2009, and the Field Office was advised the next review would be conducted on or before September 11, 2009. The facility began receiving ICE detainees in April 2009.

Review Summary

This facility is not accredited by the American Correctional Association (ACA), the National Commission on Correctional Health Care (NCCHC), or the Joint Commission on Accreditation of Health Organizations (JCAHO).

Standards Compliance

The following information is a summary of the standards that were reviewed and overall compliance that was determined as a result of this annual review of National Detention Standards.

2008 Inspections	
Compliant	31
Deficient	4
Repeat Deficiency	0
Not Applicable	3

2009 Inspections	
Compliant	36
Deficient	0
Repeat Deficiency	2
Not Applicable	0

LCI Issues and Concerns

Environmental Health and Safety – Deficient (Repeat)

Policy: Every facility will control flammable, toxic, and caustic materials through a hazardous materials program. The program will include, among other things, the identification and labeling of hazardous materials in accordance with applicable standards (e.g., National Fire Protection Association [NFPA]); identification of incompatible materials, and safe-handling procedures.

Issues

- JCDF does not conduct quarterly sprinkler inspections and tests.
- Comprehensive monthly health and safety inspections are not conducted. The facility conducts and documents a monthly fire extinguisher and sprinkler head inspection. However, other required inspection criteria, such as exit doors, exit signs, evacuation diagrams and hazardous material storage are not included in the inspection program.
- Monthly fire drills are not documented for each area in which a fire drill is conducted. Instead, JCDF maintains a log book that contains one entry per month indicating fire drills were conducted throughout the facility.
- The facility does not have a sanitation program that covers barbering operations. Clippers are issued to detainees for use. There is no qualified staff oversight for sanitation requirements; and sanitation guidelines are not posted or displayed when detainees receive haircuts.
- Air vents in numerous housing unit cells were partially blocked with paper.
- Cleanliness in detainee cells, dayrooms, shower facilities, and toilets do not comply with sanitation requirements.

Recommendations

- The facility should conduct quarterly inspections and tests on the sprinkler system as required by NFPA 25 Chapter 5.

- The facility should conduct and document comprehensive monthly health and safety inspections and document monthly fire drills for each area in which a fire drill is conducted.
- The facility should establish a detainee barber shop or an operation that provides adequate equipment and staff oversight necessary to meet sanitation requirements. In addition sanitation standards should be posted where detainees receive haircuts.
- The facility should require detainees to adequately clean their cells, the dayrooms, shower facilities and toilets. The facility should regularly conduct and document sanitation inspections to ensure an acceptable level of sanitation.

Key and Lock Control – Deficient (Repeat)

Policy: It is the policy of the ICE Service to maintain an efficient system for the use, accountability and maintenance of all keys and locks.

Issues

- JCDF does not have a procedure that provides a master inventory of all keys within the facility.
- Keys are held in multiple locations, with no current inventory or accountability.
- Keys are issued to employees but not secured, identified or accounted for. These keys are then placed on the employee's personal key ring, mixed with personal keys and the employee takes them home on a daily basis.
- Some employees are issued personal grandmaster keys which they too can take out of the facility.
- There are no current accountability procedures for the inventory or integrity of keys at JCDF.
- There is no established preventive maintenance program to dispose of worn out or broken keys and locks.
- The facility has not developed policy to address the integrity of safe combinations within the JCDF.

Recommendations

- The facility should develop a comprehensive policy and procedures for the use, accountability and maintenance of all facility keys and locks.
- JCDF should consider a single location for the secure storage of all keys with a current inventory and a set procedure for documentation of daily accountability for all keys.
- Employees should have keys issued on a secure key ring, identifying the number of keys and noted as property of JCDF.
- Grandmaster keys should not be utilized.

Recommended Rating and Justification

The Lead Compliance Inspector recommends that the facility receive a rating of "Acceptable."

LCI Assurance Statement

The findings of compliance and noncompliance are accurately and completely documented on the G-324A inspection form and are supported by documentation in the inspection file. An out brief was conducted at the facility and the following were present: Sheriff [REDACTED], JCDF; Major [REDACTED], JCDF; Captain [REDACTED], JCDF; [REDACTED], Supervising Nurse, JCDF; [REDACTED] ICE Coordinator, JCDF; [REDACTED] Kitchen Supervisor, JCDF; [REDACTED] Deportation Officer, ICE; and the MGT of America inspection team.

Significant Incident Summary Worksheet

For ICE to complete its review of your facility, the following information must be completed prior to the scheduled review dates. The information on this form should contain data for the past twelve months in the boxes provided. The information on this form is used in conjunction with the ICE Detention Standards in assessing your Detention Operations against the needs of the ICE and its detained population. This form should be filled out by the facility prior to the start of any inspection. Failure to complete this section will result in a delay in processing this report and the possible reduction or removal of ICE' detainees at your facility.

<i>Incidents</i>	<i>Description</i>	<i>Jan - Mar</i>	<i>Apr - Jun</i>	<i>Jul - Sept</i>	<i>Oct - Dec</i>
Assault: Offenders on Offenders ¹	Types (Sexual ² , Physical, etc.)	P	P	P	P

LCI Review Assurance Statement

By signing below, the Lead Compliance Inspector (LCI) certifies that all findings of noncompliance with policy or inadequate controls contained in the Inspection Report are supported by evidence that is sufficient and reliable. Furthermore, findings of noteworthy accomplishments are supported by sufficient and reliable evidence. Within the scope of the review, the facility is operating in accordance with applicable law and policy, and property and resources are efficiently used and adequately safeguarded, except for the deficiencies noted in the report.

Comments:

This is an annual review of the Jefferson County Detention Facility. This facility began receiving ICE detainees in April 2009.

It should be noted that the facility does assign selected staff the X-26 Taser. A review of use during the past year revealed no use of the assigned taser against ICE detainees. Overall, JCDF staff deployed the X-26 Taser a total of nine documented times during the past reporting period.

Comments: The Review Authority has downgraded the recommended rating of "Acceptable" to "Deficient" due to the use of EMDDs (Elector Muscular Disruption Devices). No Plan of Action (POA) is required in regard to the use of EMDDs. However, a POA is required for the Environmental Health & Safety and Key & Lock Control standards which were found to be deficient. In addition, a POA is required to address the line item deficiencies identified in Food Service, Funds & Personal Property, Population Counts, Security Inspections and Use of Force standards.
